

# Hideo Shidara

Dr. Eng.

Mr. Shidara has worked with one of major dairy industries in Japan, Morinaga Milk Industry Co., Ltd., for 40 years, mainly for engineering design and production technology.

He studied fluid dynamics as a visiting scholar at the University of California at Berkeley, USA, received his Ph.D. in Heat Sterilization from Yokohama National University, Japan, and then lectured Chemical Engineering at this University.

He has been a process engineer in the field of Hygienic Design, Pasteurization and Sterilization with heat and non-heat, Cleaning Methods, CIP, Dosing, Mixing, Emulsification, Rheology and Texture of various foods. He was also a member of an in-house project for the establishment of a new plant for Aseptic Tofu at Portland, Oregon, USA.

He was awarded for the technological development from the Japan Society for Food Engineering. He is now an independent Hygienic Engineering Consultant and a member of the EHEDG Japan Regional Committee since 2015.
